Developer seeking opportunity from the “Right” company. A company that prioritizes growth within the company; and encourages creative problem-solving. My favorite library is React. I have a long-term goal that entails the continued learning and mastery of React. A short goal of learning one new thing a day. Common let us grow together!

EXPERIENCE

10/2021- PRESENT

REACT DEVELOPER, HALEN

Build highly skilled in UI/UX layout and design. knowledge in HTML5, CSS3, JavaScript, Object Oriented JavaScript, CSS Frameworks like Bootstrap/Pure CSS etc. Javascript library like ReactJs/Redux. Will actively communicate status of work to both the client and to the internal management

08/2020 - 04/2021

FULL STACK DEVELOPER, ORLANDO SPENCER I, INC.

Worked on multiple projects. Spent most time working on an aviation application that will eventually utilize A.I to learn pilot routines. Assisted in UI/UX for the front-end of the University of California Baptist, this project was more focus on aviation appointment setup. Developing an App with various technologies such as, Angular, React, CSS, Javascript, Node, Bootstrap, Material UI, SASS.

06/2020 -12/2020

FRONT-END DEVELOPER, CCS SUPPLY STORE

Assisted in the development of the UI/UX of this small starter company. Big Commerce platform was utilized in conjunction with CSS, JavaScript. In the process of creating a new eCommerce website in React plus various other technologies. Began to utilize node.js / Next.js and javascript for the backend of the application.
